BARBARY (Aoudad) SHEEP HUNTING in SPAIN

15th July to 15th February: 2020/2021

No size limit Barbary Sheep, 55 cm approximate size.

Spain is one of the very few countries where Aoudad sheep can be hunted wild. We hunt in 9,300 hectares of private land. Population numbers are good, so Aoudad sheep are seen on most hunting days. Hunters of all physical conditions are welcome as the topography is varied and suits all needs.

The hunting grounds are in Murcia which is a 4 hour drive from Madrid airport alternatively you can fly to Alicante which is 1 hour from the hunting. This is our recommended option. Hunters will be transferred to the hunting area from airport in good quality vehicles. English speaking guides are always at hand.

We recommend that you hunt between the 15th July and the 15th November.

During July and through to the middle of September it is very dry, so the sheep are quite easy to locate near water. This is an excellent time to come with family or friends to combine with a holiday.

From approximately 15th September to 15th November the rams are rutting meaning that this is also very good time to hunt. You can expect fine weather at this time.

99% of our hunts are a success.

If animal is not taken a 50% refund will take place.

Injured animals will be tracked with hounds. We have excellent blood dogs.

PRICE 3,850 Euro

No additional Spanish taxes.

Included:
